GLADWIN COUNTY PRESS RELEASE

Permit Requirements

Inspectors of the Gladwin County Building Department are advising all owners of flood affected homes and dwellings to obtain their required permit for inspections before beginning repairs. Gladwin County has reduced their permit rates specifically for those impacted by the flood to the following rates: Electrical - \$70.00. Building, Mechanical and Plumbing - \$50.00.

Please contact the Building Department at 989-426-5931 or codes@gladwincounty-mi.gov for further information.

Additionally, unless there is an emergency to protect your home from erosion, a permit from EGLE is required in advance of any work being completed. If emergency repairs are done, without a permit, property owners are still required to obtain a permit after the emergency is abated.

Laura Brandon-Maveal
